NAVIGABLE WATERS PROTECTION RULE**

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 8/13/2021

ORM Number: MVP-2021-01142-MJB

Associated JDs: N/A

Review Area Location¹: State/Territory: Minnesota City: Rochester County/Parish/Borough: Olmsted

Center Coordinates of Review Area: Latitude 44.041015 Longitude -92.535283

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list MUST be selected. Complete the corresponding sections/tables and summarize data sources.

- ☐ The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
- ☐ There are "navigable waters of the United States" within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
- ☐ There are "waters of the United States" within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).
- ☒ There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in Section II.D).

¹ Map(s)/figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

D. Excluded Waters or Features

| Excluded waters ((b)(1) – (b)(12)): ⁴ | | | | |
|--|----------------------|---------|------------------------------|---|
| Exclusion Name | Exclusion Size | | Exclusion ⁵ | Rationale for Exclusion Determination |
| Wetland 1 Wetland 2 Wetland 3 | 0.01 0.01 0.01 | acre(s) | (b)(1) Non-adjacent wetland. | The wetlands do not abut at least one point or side of, a paragraph (a)(1)-(3) water. They do not have regular inundation under normal circumstances. Based on the USGS, aerial maps, and elevation contours it would not be flooded by an (a)(1)-(3) water in a typical year. The NHD/USGS identifies the nearest potential tributary approximately 115 feet away. The wetland is not abutting or adjacent to that tributary. A railroad crossing and upland separates the tributary from the wetlands. There is upland between the wetlands and the railroad crossing. The wetland is not solely separated from an (a)(1)-(3) water by a berm or similar natural or man-made feature. Based on this review, the feature is a non-adjacent wetland under the Navigable Water Protection Rule (NWPR), and the assessed features are not jurisdictional under NWPR and the Clean Water |

III. SUPPORTING INFORMATION

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

| USGS Sources | National Hydrography Dataset |

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
